# Synapsys Managed Learning Services Catalogue

Our end-to-end managed learning service gives you access to leading edge technologies and learning specialists who will manage your entire learning journey. Be confident in your learning strategy, the experience of your staff, and the return to your organisation. Reduce the cost and complexity of internal learning services, leaving you with budget and time to focus on what matters.

**Synapsys** 

## 1. Learning Strategy Formulation

Our team of experts will work closely with your organization to develop a tailored learning strategy aligned with your business goals and objectives. This service includes conducting a comprehensive needs analysis, defining learning objectives, and identifying the most effective learning methods to meet your workforce development needs.

#### 2. Custom Learning Management System (LMS)

Your Learning Management System (LMS) caters to your organisation's specific requirements. The LMS will offer an intuitive user interface, seamless content management, robust reporting and analytics, and scalable architecture to accommodate your evolving learning needs.

- Workshop, eLearning and social learning offerings
- Allocate learning by role, business function or your own criteria
- Manager approval and reporting
- Learning linked to your capability framework
- Access free and third party learning programmes
- App based learning and On-job assessment
- Onshore hosting, accessibility standards compliant, General Data Protection Regulation (GDPR) compliant

#### 3. Pre-packaged and Custom Learning Programmes

Choose from our diverse range of pre-packaged learning programs covering a range of areas including induction, and health and safety. These ready-touse programs are designed by subject matter experts and can be quickly deployed to address your immediate training needs. Each program comes with comprehensive learning materials, assessments, and progress tracking.

We'll also build your bespoke programmes at a fraction of the cost of paying external development companies. Using AI technologies, we'll generate source material for your subject experts to amend and verify. Your programmes can be loaded up and running in the system as soon as you sign them off. Your subscription includes 50 hours of learning designer time for the development of bespoke content specific to your organisation. Further 10 hour blocks of time available for purchase. Use only what you need.

#### 4. Training Administration

Our dedicated team of training administrators will handle all aspects of training logistics and operations, allowing your team to focus on strategic tasks. From scheduling training sessions, managing enrolment, tracking attendance, to handling participant communication, we ensure a seamless learning experience for your employees.

## 5. Learning Impact Measurement and Reporting

We understand the importance of assessing the effectiveness of your learning initiatives. Our learning impact measurement service includes the design and implementation of evaluation frameworks to gauge the impact of training on employee performance and organizational outcomes. We provide insightful reports to help you make data-driven decisions and continuously improve your learning programs.
